"The goal of early childhood education should be to activate child's own natural desire to learn" - Maria Montessori

Programming:

We noticed that babies make a mess and waste food. So we came up with a strategy that during lunch time Lizza and Shikha will focus on a group of 4 and teach them how to eat food, without dumping on the floor or gobbling in their mouth.

Important Dates

Centre would be closed on Monday, October 9th for Thanksgiving – GOBBLE GOBBLE

On October 31, We'll be having a Halloween Party. We will be trick or treating in the building to the local businesses.

In the month of October we will be learning about apples. Our babies are showing interest that they want to explore and learn about its colour, texture, taste etc.

GENTLE REMINDER

Please ensure your child comes appropriately dressed for the weather e.g. coat, hat/toque and rain boots. Bundle up and enjoy the fresh air!
